MEASS. Editors :- To a free people, jealous of their constitutional rights, and careful of the great interests of the State, any threatened encroachment upon the former, or danger to the latter. ecomes a matter of the highest concern. The present Legislature of this State, by a re-

cont joint resolution of the Scante and Assembly, has proposed an lavestigation into the alleged bilbery and corrupt conduct of members of a former Legislature, cortsin Rail Road Companies and their Agents and other individuals, in rolation to the disposition of the land grant. It is not my object at present to inquire into

or to denounce the motives of these who have prompted this proceeding: I desire to assert and maintain that it is not warranted by the Constitution, and that it is fraught with danger to the rights of the citizen, and the best interests of he Sinte.

It will be admitted, that the Legislature, like the other two departments of the government, derives all its powers from the consect of the people as expressed in the Constitution, and that believe the people as expressed in the Constitution, and that believer since enjoying Professor Bronson's Institute there are sightful program of the people with th other two departments of the government, deyoud this it has no rightful powers of legislation. The powers of the Legislature in regard to the subject mutter of the proposed investigation, are defined by Sec. 8 of Art. 4, of the Constitution as follows: "Each House may determine the rules of its own proceedings, punish for contempt and disorderly behaviour, and with the concur-rence of two thirds of all the members elected

The Nows.

He desired device, directly or indirectly, to control or influence a member in giving the same; but the term of imprisonment which such House may impose for any contempt specified in this section, shall not extend beyond the same session of the Legislature."

By this it is apparent that the whole power of the Legislature in the matter of contempt, breach of privilege and corrupt conduct, is a power conformed assumption upon each House, as to its conferred separately upon each House, as to it own mombers, and that that power is limited to

the existing session.

If this be so then, first, the two houses have no common or joint power in the premises and cannot act by a joint resolution, and secondly, the present Legislature, and neither House of the same, can inquire into, or punish alloged misconduct at any lorner washen. Each House of the present Legislature can inquire into and punish any contempt or breach of the present punish any contempt or breach of its own privil-leges, or the privileges of its own members, but nettber Rouse, separately or jointly, can inquire into or punish similar offences at a former session. Hence a member who has been expelled s. anding. The institution victimized is the may return to his constituents, and if they see Hartford County Savings' Association, and the first to re-cleet him he is care.— This position has never been questioned, and has been repeatedly recognized in Cougress and

in the States.

Nor is there anything in the exigency of the case to warrant this usurpation of power. It may be said by some that although the Legislamay be said by some that although the Legislaturo is powerless in two premises, it may still accomplish a good by furnishing proof for the public judgment upon the misconduct of individuals, or ter judicial proceedings against them. Let us examine this for a moment. By the next section of the law of the State above quoted, it is provided in substance that every person who shall be guilty of any such contempt shall also be deemed guilty of a misdemeanor and, on conviction, shall be punished by imprisonment and fine, or either, in the discretion of the Court.—And by see. 8 and 0, chep. 136, relating to of-And by see. 8 and 0, chep. 136, relating to of-feaces against public justice, the misconduct al-ieged in the joint resolutions is made a crime, and punishable with severity. Beyond the exand punishable with severity. Beyond the extraordinary yet limited powers before noticed, given to each House of the Logislature while in session, for purposes of self-protection and the purity of legislation, every charge of criminal conduct against a citizen of the State, should be in conformity to the constitution and the laws. To him, by the constitution and the laws. To him, by the constitution, the right of trial by jury remains invicint; he is entitled to be heard by himself and course, to demand the nature and cause of the accusation against him, to meet the witnesses face to face, and above all (except in certain specified each) he shall not be held to answer unless on the indictionary, or presentment.

I may be wrong, but I assume that it is aimed chiefly at the disposition of the Land Grant to the Lu Crosse Rail Read Company. I have no private interest in that Company, nor do I propose to culogise it, or to defend its management. But I may safely claim that for the future prosperity of this city and as a source of revenue to the results and the safety and as a source of revenue to the In my safely claim that for the future prosperity of this city and as a source of revenue to the State, it is the most valuable road yet in process of construction. Is it expedient, is it sound policy to eclipple its means, or to injure its credity of the neighborhood of the Clyman House, Dodge County. They came to the fire about 11 o'clock last night, and gave contradictory accounts of themselves. Money is supposed to have prompted the crime, as Werner was thought to have considerable on hand. It so happened, the fire about 21 times, it is still a fact that that Company has pushed the construction of its Road during the past year beyondfany other Rail Road in the portion of the state, it is the most valuable road yet in process. when the leadering and of the State, to speedily complete its Read. If the enterprise be so important and valuable, is it wise to permit personal or political ends to paralyze or defeat it?

If such a suinous policy is to be pursued, it should be borne in mind that a numerous and

aid in the construction of the read. If the Com pany be sustained and the rend completed, the inrmers will be protected, and not only so, but the unsecured bouds and stock of the Uompany ill become valuable to their holders. But if by mad, or unjust legislation, the company shall be prostrated, and the completion of the road de-leated, there is reason to fear that the road may have to pass into the nands of the first mortgage

bond holders, and thus the unsecured bonds and stock become valueless, and the farmers be left to the tender mercy of those who may hold their mortgages.
Were there less of personal and political animostly, and more of a better and higher public spirit, the reputation and best interests of the spirit, too reputation and best interests of the state would be greatly promoted.

In examining the proposed investigation in either point of view at first suggested, I am com-pelled to denounce it as unconstitutional and in indiction.

The exports to Engiand and Sectiand sions, during the west, were 28,000 bels four, 25.00 bus wheat, 30,000 observers, 1202 bbls pork. All this is a large increase over last year, and shows, when it is reminibered that the same is true of the previous weeks of the present year, that there is an increased and growing demand in Great Bittain for our products. In addition to this there are symptoms of the same kind with the West Indies and South America; the exports of the past week to these regions being quite large against none the corresponding week last year.—Buf Com.Adv

MILWAUKEE:

TUESDAY MORNING. FEB'RY 2.

The Land Grant Investigation. The News of Sunday, corrects two of its mis statements, by admitting that the Democrats controlled one branch of the Legislature, when the Land Grant was disposed of, and that Speak. er Lovent has given the Democrats two, out cl the five members on the Investigating Committee. Nevertheless, the News is still unsatisfied and unbappy. Its present grief is, that "the Legis-Liture have taken steps already which will give "it the character of a partial and one-sided id-"vestigation." How does that appear? Why, says the News, "the Black Republicans selected o the Committee in caucus," instead of leaving the selection to the Speaker, which the News minority to name their two members, which would have been equally "fair." Now the responsibility of this investigation, as of the Ldgistative business generally, rests upon the mdlority. It is not only their right, but their duty, therefore, to see that computent and reliable men are put in charge of the work to be done. So long, then, as the Committee was fairly and fitty constituted, it does not make the slightest difference whether it was selected through the agency of a caucus, or by direct appointment of the Speaker. But in this particular case, the caucas story was plumply contradicted on the floor of the House, and the Speaker, in answer to a query from Mr. P. H. Smirn, declared that lie had appointed the Committee, after consulting with his political friends. That such consultation was both proper and usual, no man disputes The mode of appointment, therefore, being un-

exceptionable, and the political proportions of the Committee pertectly fair, what ground of objection remains,? Manifestly none, unless it be to the Members thomselves. Does the News take that ground? Not at all. No one questions the ability, or impugus the motives of the ed objectious to the mode of appointment afford but a very poor protext for charging the Com-

Lecompton, a Party Monauro.

The Washington correspondent of the New York Journal of Commerce, a " somi-official" ad m'oistration organ, thus writes, under date of J.m. 27th :

"I am informed, on reliable authority, that "I am informed, on reliable authority, and the President, in anticipation has fully prepared the Constitution, which

Proper will repudiate the Party that undertakes to carry so odious a measure.

From Washington. (appoint Despatch to the N. Y. Express.)

The Army Bill-The Came of the Fire Eaters-Threats and Intimidation-No increase for Utah while there are Soldiers in Kansas.

WASSINGTON, Juo. 27. The debate on the bill to increase the army in

Utah, is waxing hot. The Fire Eaters, under the lead of Jeff. Davis, have set their hearts upon the measure, and are trying to bully it through, but in this they are not countenanced through, but in this they are not countenanced by the more sensible southern men. The northern Benators, it is certain, will consent to the increase only upon condition that the 3,000 troops now in Kansas (to keep down the Free Sate people) be marched out of that Territory.

The oillie, without qualification, an Administration measure, and its ultimate fate, therefore, is looked for with great interest.

One thing is certain, the Secretary of War is not going to get, in any event, an increase to the excent no han asked for. A substitute for Davis's Bill, to that effect, to day was flatly voted down by a vote of Es to S. Stick a pin there!

This is the first sympton of independence that

the Soonto has shown, and we gladly make a note of it. All the additional troops that the Government need, they can get by raising the present Companies to the full war standard .-The four new Regiments demanded by the Secretary of War would be superfluous and costly

It was in this debate on the Army Bill that Senator lyeason, of Georgia, thus moderately expressed bimself:

Mr. Iverson (Geo.) remarked that ho, regrotted Mr. Iverson (Goo.) remarked that he regretted as much as any one the necessity for the outpleyment of troops in Kanass, but if it had not been for this, long before now there would not have been an abolitionist left to desserate and polition the soil of Kanass. Lawrence, that single fit place of folly, fitth and falsshood, would long ago have been recast to the ground. The listery of tent pince might have been written in the words "Lawrence was." Much had been said about the Border Rullians of Missouri, but he did not know a worse set of maranding rullians than those under Jim Lame. If there was a band of rullians more despicable than another it was this same band. Indeed if one codificate the informat regions from the surface to the bottom, he did not believe a set so infamous bottom, he did not believe a set so infamous could be dished out.

My, lyknson's information about Kansas is avidently of the most imperfect and unreliable sort. Had not the U. S. troops held the hands of "the Abelitionists" in Kausss, they would tong since have settled matters there for themsalves by the most summary and decisive pro-

STATE STOCK BANK OF WISCONSIN .- The Mil-

"We find the above in the Betroit Daily Advertiser of Saturday last, Jan. 23d. There is no such Bank as "the Satus Book Bank of Wisconsin," organized under the laws of this State. At least none such appears in the Comptroller's report of Jan. 4th. Nor do we see how "the laws of Wisconsia" can very well apply to a Bank organized and operating at Marshall, Michigan."

We think so, too, and should like to know more about the institution which the Expounder so fully endorses. Is it "wild cat?"—Detroit

Can our Madison contemporaries throw any light on this subject? Has the "State Stock Bank of Wisconsin," organized and operating at Murshall, Michigan, a bona fide existence under

The snow of last week was carried off on Sun lay, Monday and Tuesday by a thaw and drough og rain, and our " remarkable winter weather" still continues more like October and Novembe lengthening, with more neurs of sun, and it seems as if we could not expect a large amount of old weather and goodsleighing, and still three fourths of the winter work, in the woods and placeted is yet to be done, or to be left undone. The warm weather on Saturday rendered the ice in the river unus for the more to organ than December and Junuary. menio for teams to oross.

East of the Devil River, settlements are becoming thick. During a drive through the woods in that quarter last week we came to very many more farms than we expected to find. Along the East Branch, which gues through fine land, and is a handsome stream, the thick forests are giving away before the race, and every half mile there is a comformble house and the beginning of a farm. Most of the new settlers are Helgians and Germone, but we found some Yankees. A large quantity of cord wood is being got out; some pine logs, and some ship and stave timber. They are selling the best hard wood at 50 cents a cord on the ground. cord on the ground.

Countarraivers Abrestro.—Sheriff White ar Universities Abreshed.—Sheriff White arrested, several days since, at a boose a few miles above Depert, two men for passing counterfeit money. Their names are John Havenstot and C. W. Our must buve been driving a large busin readers will be on their guard for pasted and counterful bills as there appears to be a large amount now in circulation in this vicinity.

On Wouldesday last Shoriff White also arrested young man named William Ewin who has lived at Green Bay and Depero for two or three years past, for passing bitls altered from ones to fives. A number of old " Wisconsin Bank" bills were found in his possession, some of which had been out up to obtain the figures on the corners and the words " Five Dollars" in the centre; also some bills which had undergone the process (of altering; and a considerable quantity of \$1 genuine bills of various banks which had probably seen collected for the purpose of altering.

THE WHALE FISHERY, -The Great Poler Sea he Nursery of Whales .- The San Francisco paours brought by the Moses Taylor, contain an artitle from the Monolulu Comercial Advertiser, upon the subject of the Whale Fishery in the North Pacific, with a summary of the result for thu past season:

The whole number for whaleships arriving a the Sandwich I dands at the close of the fishing suason of 1867 has been 186. A San Francisco partial, the President, in anticipation has fully prepared a message to accompany the Constitution, which is characterized as inclerate in its ctyle, and making the immediate admission of Kansus, with the Lecompton Consitution, a party measure.

The New York Herald which, like the Journal of Commerce, sails, just now, under Democratic colors, and is a zealous champion of the administration, continue the above tidings. The New York Republican papers are in receipt of similar advices. This concurrent testimony seems to leave no doubt of the truth of the story, incredited by forced through Congress and upon the People of Kansas, "as a party measure?"

The aspect of the Kaneas question has changed in the House since last week, and branged for the worse. As there is hope of a Pro-Slavery State Government and Legislature under Calbour's counting, it is determined that the Lecompton fraud shall be put through.

And it probably will be. Douglas has spont his force and wonkened his position by estentationally clinging to his party. The Northern Domography are bucking down.

Ten Pennsylvacia members have given in their adhesion to Lecompton, among them Mr. Landy, previously reported to be anti-Lecompton. Of the New-Jessey Democrats Mr. 11 Adrain alone holds out. Of the six Indiana Domocrats, four are for Lecompton. Clay, Jewett and Stevenson, Kentucky, are also claimed for Lecompton, though reported hast week to be against it. The Vicu-President, who, as has been asserted, sympathized with Douglas, is for Lecompton.

Intelligence received by the Cabinet to-day assures the Administration of a Pro-Slavory majority in the Legislature of Kansas. The State ticket is also Pro-Slavery. Marcus J. Parrott is Member of Congress. The Lecompton Constitution is expected on Friday. Other information induces the belief that Gau. As soon, as the enemy had thoroughly completed the livestment of the residency, they secured houses which were within easy pisted shot of our barricades in immense force, and rapidly made loopholes on those sides which bore on our post, from which they kept up a terrific and incessable as there could not have been less than 8,000 men firing at one time into the position. Moreover, there was no place in the whole of our works that could be considered safe; for saygual of the sick and wounded who were lying in the banqueting ball, which had been turned into la hospital, wore kilisd in the centre of the building; and the widow of Lientenant Dorta, and other women and children were shot dead in la room into which it had previously been deem-

other women and children were shot dead in a room into which it had previously been deemed possible that no bullet could penetrate.

Neither were the enemy idle in erecting batteries. They soon had from 20 to 25 gims in position, some of them of very large calibre. They were planted all round our post at small distances, some being actually within 50 yacds of our defences, but in places where our own heavy guns could not reply to them; while the perseverance and ingenuity of the enemy in erecting batteriades in front and around their guns in a very short time, readered all attempts to silonge them by musketry, entirely unavailing. Neither could they be effectually silenced by shells by reason of their extreme proximity to our position. them by musketry entirely unavailing. Neither could they be effectually silenced by shells by reason of their extreme proximity to our position, and because, moreover, the enemy had receared to digging very narrow, trenches, about eight feet in depth, in, rear of each gun, in which the metalsy white our shells were flying, and, which so effectually concealed, them, even, while working the gun, that our baffled sharp shooters could only see their hands while in the act of loading. The enemy contented themselves with keeping up this incessant fire of cannon and musketry until the 20th July, on which day at 10: a, m. they were assembled in very great force, all round our outer line of detences at the water gate. The mine, however, which was close to the Redan, and, apparently, sprung with the intention of destroying that battery, did no harm. But, as soon as the smoke had cleared away, the enemy boldly advanced, under cover of a tremendous fire of cannon and musketry, with the object of with such a heavy fire that, after a short struggle; they fell back with much loss. A strong column advanced at the same time, to attack innesse past and came up to within to yards of the pullisades, infording to Lieux. Loughnan, 18th Native Infantry, who commanded the position and his brave garrison, composed expentemen of the en-covenness as from of her Majesty's 32d bruve garrison, composed objectilemen of the en-covenanted service, a few of her Majesty's 32d Foot, and of the 18th Native Infantry, an oppor-

Shilling's garrison on the dust clearly away, a breach appeared through which a regiment could have advanced in perfect order, and a tew of the enemy came, on with great determination, but were met, with such a withering hank fire of musicarry from the officere and men holding the house of the brigade, mess,

with scaling indeers, which they planted against the walls, but here, as electainer, they were most with the most indomitable resolution and the leaders being alid the rest fled leaving the ladders, and retreated to their liatteries and bopholed despones, from whiches they kept up for the rest of the day, an unusually neavy cannonate and nusketry fire.

On the with of Agaist, the sneary sprang another the cone of the Sikh lines, with very fatal end. Oapt, Orr. mattached, Lieutenants Mecham and Soppitt, who commanded the small body of drymmers compasing, the garrison, were blown in the slip, but returned to earthwish no further injury, than a severe shaking. The garrison were not so fortunate. No less than eleven men, were burled alive under the crims, from whome it was impossible to extricate them owing to the tremendous fire, kept up by the enemy from houses situated, not ten, yards in front of the breach. The explosion was followed by a general assault of a less determined nature than the two former efforts, and the enomy were constantly repulsed without; much difficulty; but they succeeded, under cover of the breach, in off position, from which they were driven in the evening by the beyonets of her Majesty's 82d and 84th Foot.

On the 5th of Soptember the cremy made their last serious assault. Having, exploded a large mine a few feet short of the bastion of the 18-pounder gun, in Major. Apathorple post, they advanced with large bravy scaling ladders, which they planted against the wall and mounted, thereby gaining for an instant the embrance of a gun. They were, however, expecting their leaders, which they planted against the wall and mounted, thereby gaining for an instant the embrance of a gun. They were, however, expecting their leader, a fine looking old native officer, among the slain. At other posts they made similar pattacks, but with less resolution, and everywhere with the same want of success. Their loss upon the day must have been livery lieavy, as the content of the with less resolution, and overywhere which the same want of success. Their loss upon this day must have, beenlyory lieavy, between common, on with much determination; and at night they were seen boaring, large numbers of their killed and wounded over the oridges, in the direction

And each could tell his tale of youth—
Would think its access of love evince
fore gussians, more uncartilly truth,
Than any tale before or since.
Yes! they could tell of tender laye
At middight punned, in altesto abades,
Of days a ore bright than modern theysof makes more fair than modern maids,

Of whispers in a willing car,
Of kisses on a blushing check—
Saul kiss, anch whisper, far too dear,
For moure ilps to give or speak,
Of prospecis too, unimely crossed,
Of unasions sinkhold or burnyed—

Of kindred apirits early lost,
And buds that blossomed but to fade,

Also form and those orew, And shrams—that all have passed away, And left them what you see them now! And is thing?—Is human love So very light and frall a thing? And must youlk's brightest visions move Forever on Time's restless wing?

blust all the cycs that all inva belaht, And all the lips that take of biles, And all the forms so bright to high; If creater only come to this? Then what are love best whom werth, If we at leagth toust the them thus? If all we value mest on earth, Ere long must fade away from us?

If that one using whom we take
From all the world, and still recur
To all the call, and for her asks
Fuel far from loy, when far from her;
If that one form which we adon,
From youth to ago, in biles or pale,
Soon withce and is seen no more.
Why do we love—if love be vain!

FARE AS LOW AS ANY OTHER ROUTE.

SAFT-Passengers wishing to go by this desirable and pleasant Route, should be particular and ask for Tlokes by Fort Wayne, avoiding the annoyance. of re-checking baggage as by other Routes.

Trains leave Depot on VAN BUREN ST., daily at this way. 6:00 A. M. S.45 P. M.

as follows

With but one change of carsto Pittsburgh.

OHROKING BAGGAGP THROUGH

TO Pittsburgh, Palindelphin, Baitimore and Now York.
Connecting directly with trains on the great Pennsylvania Central Railroad, to all Hastern cities. Also, with Cleveland and Columbus Railroad to Oleveland; Dunkirk, Badalo, Niagara Falis, via New York and Boston. Ferson going Bast will find this route by far the most desirable both from the advantage in point of distance, variety and beauty of the country through which the roads pass, sa well as the less frequent changes of one, and the annovance of re-checking baggage required by other routes.

Facilities for the transportation of Freight and Live Block by this route, are unavortased. Rates as low me any other routes.

Takets for asleast all the principal ticket offices at the West, and at the Company's Office, No. 20. Destrorn St., opposite the Tremont Home, Olicago, and at the doffies of the Lake Shore Railroad, Milwaukee, by A. G. Leiand.

BARMADAM:—The reputation of the Medical Discovery, in curing all kind of humors, is so well established, by the unanimous voice of all who have ever used it, that I need not any anything on the subject, as the most sufficient in the country are unanimous in its praise.

In presenting the Medical Discovery to your notice, I do it with a full knowledge of its curative powers, in releving all, and curing most of those diseases to which you are unfortunately so liable. That most excernicating disease to an affectionate mother.

NIERSING SORE NOETH, is cured as if by a mirrade; your own temper is restored.

is cured as if by a mirade; your own temper is rastored to its natural sweeters, and your babe from short and fretful napa to caim and sweet simplers; and the Medical Discovery becomes a fountain for blessings to you husband and household husband and southers. CANKER

It extends to the stomach, ensuing INTSPEPSIA, Which is nothing but canker on the stomach; then to the intestines and

which is nothing but canker on the stomach; then to the intestines and RIDNEYS, creating a sinking, gone feeling; and an indifference vea to the cares of your family.

Your stomach is FAW AND INFLAMED, your food distresses you, and you can only take certain kinds, and even of that your system does not yet half the noerishment it contains, as the acrimonous duid of the canker eats it up; then your complexion loses its bloom and becomes railtow or greenish, and your best day is gone. For want of nourishment your system becomes igone and dabby, and the thores of your body become relaxed. Then follow as train of diseases which the Medical Discovery is peculiarly adapted to CUR;

Paipitation of the heart, pain in the side, weakness of the spine and small of the back, pain of the hip-jeint when you retire, irrevulsify of the bowels, and also, that most exoruciatin of disease. The PILES.

How many thousands or poor women are suffering from this disease and pining away a miserable life, and their next door neighbor does not know the cause. I wish to impress on your mind that good old provers, "An once of prevention is better than a bound of care." In the MEDICAL DISCOVERY

you have both the preventative and the care, with this you have both the preventative and the care, with this great and good quality, that it will never, under any circumstances, do you an injury. ONE OF THE HEST PURGATIVE

and Liver Medicines now lefore the public, namely,
DR. SANFORD'S INVIGORATOR, or LIVER REMEDY,
that acts as A Cathardic, caster, tellider and more effect,
cal than any other midde the known. It is not only
a Cathardic, but a Liver ramedy, ac in dire; on the
liver to efect the morbid master, then on the stomsch and bowels, to carry off the matter, that accompliability two purposes effectually, without any of the
paintful feelings experienced in the operations of
most Cathardics. It strengthens the system at the
same time that it purges it, and when taken in moders to doses will strengthen and build it up with unucanal rapidly.

DR. SANFORD'S INVIGORATOR is compounded
entirely from new articles of medicine, viz: Gams.

Bome lies of the strongth of these gams may be
organd when it is known that one bottle of the indeposited contacts as much attempt as one hundred.

doses of Calonel without fury of its deleterious effects.

Though possessing rare medicinal powers, these gams have been our little known to physicians, and over used in their prescriptions utility used in the form of the Invigorator, which met with such unprecedented success as to induce the proprisor to offer it as a family medicine tried and known in its effects. It has rarely ever failed to care Liver Combination of the Invigorator forms.

rail to try this the greatest remedy in the world.

Sate Fact.

We take infinite bleasure in recommending this medicine as a preventiative for FENER and AGUIT.

OHILL FAYER, and all FEVERS of a BILIOUS IVE. It operates with certainty, and thousands are willing to testify to its wonderful virtues.

There has never been tried in our family a remedy which has met with such unbounded success in the cure of diseases incident to children, as Da. Sarson's invisionative for its above for diseases of children that we use it for it acts as a Cathartic so mildly and gently, and seems to renovate the system to thoroughly that we think we are deing a service to all in advising them, when they need medicine, to try this yemedy. There are cases that have come under our notice where great benefit has been excised in diseases of the Liver, Stomach and Bowels, where all other remedies failed to give relief it has become so useful in our family that we will not be without it.—Jucksoneille, did.
